

# Certificate of Attendance

## Dmytro Oksentiuk

Participated in the course:

### High Intensity Gait training (HIT)

May 5<sup>th</sup> to 9<sup>th</sup>, 2025

#### Program

##### Oslo municipality rehabilitation unit, Forsterket Rehabilitering Aker (FRA)

- Guided tour of the unit
- Observation of high-intensity gait training (HIT)
- Patient safety in HIT
  
- **Workshop at FRA:**
- Focus 1: Assessment and subcomponents.  
The instructor from FRA shows how to perform assessment and address subcomponents with a patient to the Ukrainian clinicians. The Ukrainian clinicians work in teams with a patient in each team where they instruct the FRA clinicians to perform assessment and address subcomponents. At the end of the session there is an evaluation and discussion on how to assess, explain and teach subcomponents.
- Focus 2: Treatment and appropriate intensity  
The Ukrainian clinicians instruct FRA clinicians regarding treatment and explain the rationale for the interventions. At the end of the session there is a discussion on treatment and rationale for the interventions.  
(Instructors:
  
- Presentation of "Knowledge Translation and Implementations Research" at FRA.
- Frameworks for research in clinical practise

##### Sunnaas Rehabilitation Hospital

- Guided tour of the hospital and presentation of activities and programs
- Meet with head of physiotherapy and visit physiotherapy department

Qualifying hours: 18

May 9<sup>th</sup>, 2025
